Summary

Results-driven web developer with years of hands-on experience in front-end and back-end technologies. Seeking a challenging role to further apply and enhance my skills in creating responsive, user-friendly web applications. Committed to contributing innovative solutions and collaborating within a dynamic team to drive impactful digital experiences.

Experience

Media Meter Inc.

Senior Front-End Developer

Feb 2023 – Jul 2023 (6 months)

- Ensure individual and team tasks align with key performance indicators (KPIs).
- Support the Team Lead in daily team activities and act as a point of contact for team-related issues.
- Assume the role of Officer-in-Charge (OIC) in the absence of the Team Lead, overseeing assigned infrastructure components' ongoing performance.

Front-End Developer

Jul 2022– Feb 2023 (6 months)

- Advocate and implement best software development practices throughout project phases.
- Contribute to the entire development lifecycle, including code optimization, testing, and scalability.
- Develop reusable code, ensure technical feasibility for UI/UX designs, and prioritize application speed and performance.

Sandman Software Systems Inc.

Junior Software Developer

Jan 2021 - Feb 2022 (1 year and 2 months)

- Maintain and manage both current online and local systems (Web Portal, Database and Server Files).
- Process the client's raw data into the database accurately and correctly.
- Develops complex web applications and modules with team or independently.
- Ensuring websites are accessible across many platforms, including desktop, laptops and smartphones.

ABS-CBN Foundation

Technical Support Representative (OJT)

Jan 2020 - Mar 2020 (3 months)

- Resolve Windows/Mac network issues, software/hardware errors.
- Install and maintenance local printers and setup network printers.
- Install/update software, hardware, drivers, and upgrade computers.
